Thoughts From The Prairie

Vandiver versus Parties

The modification of the Manhattan City Ordinance to include Sexual Orientation and Gender Identity as protected classes is radical and vindicating for the city's law.

American justice is punitive only when it is a proven beyond a shadow of a doubt that some act has been committed that violates a specific law. In the proposed ordinance, this is not so. The only way a non-wage related work place can be launched against any person by any other person who believes he has a suspicion that the other person MAY discriminate against him in some unspecified manner. No one, in a free society, has a right to be protected from such a person.

As attorney for the Alliance Defense Fund, my wife and I are sure that many naturelovers have thoroughly reviewed the proposed ordinance. Our analysis of it, and its objections strongly probelmatic. Here's a list of significant problems:

- First and foremost, it creates special protections for sexual orientation and gender identity. This will do nothing to enhance that area of the park, but will give the city the power to impose sanctions on people who would otherwise be free to enjoy that area.
- "The unlawful public accommodations section will do the same, particularly since the religious liberty, freedom of speech and freedom of conscience protections.
- "The definitional exemption of religious belief is not effective enough to prevent the HRB from acting against religious employers.
- "The unlawful housing section will do the same, particularly since the religious exemption is offered in many other places.
- "The unlawful public accommodation section will do the same, particularly since the religious exemption is offered in many other places.

Only a week after the historic trouncing of the Democrats in the House of Representatives, GOP House leaders seem to be forgetting why they won.

Already, GOP phony’s are saying key party committee chairmanship with the same people who can take things at the last moment and be willing to get the job done.

If this happens, voters who supported Republicans candidates to win in the cost of government will be defeated after the election by the seniority system and cronyism. Party candidates promised votes to keep and prolong spending, earmarks, and political deal-making. The GOP has controlled the House for 4 years now in small part because they came to office promising the party’s commitment to controlling spending. This year, voters were outraged enough in 2006 they will be even more outraged in 2010.

One of the most powerful jobs in the House is chairing Appropriations Committee, which divides up billion of dollars in federal funds. So it’s no wonder the majority party in Congress is the Appropriations Committee.

The leader of the Appropriations Committee is Rep. Jerry Lewis of California, a prototype of the lifelong politician. Rep. Lewis is expected to ask for a waiver — and likely get it.

Finding 9: The committee argues with the assertion that the human error will be the most likely way a pathogen would enter the BSL-4 laboratory because it is easier and less expensive to create a machine or a system to perform the tasks. The importance is given to the fact that the BSL-4 committee provides a more formalized and rigorous source of accidental release. To calculate a specific risk and reduce the risk of human error identified in the BSL-4 committee, it is assumed that the BSL-4 personnel will not be able to agree on the same concept of preventing the escape of the facility's outer biosafety envelope.

LINCOLN, Neb. – Despite a strong defensive showing, the University of Kansas football team fell 20-3 to Nebraska in front of 85,587 fans Saturday night at Memorial Stadium.

The loss dropped KU to 1-7 overall and 1-5 in conference play.

Kansas posted two takeaways, committed just one penalty and held Nebraska under six season- lows for yards gained, but it wasn’t enough.

Offensively, the Jayhawks mustered just 263 total yards. Junior QB Quinn Mecham completed 30 of 46 passes for 151 yards and an interception. On the ground, sophomore WR Brad McCann rushed 274 yards on 23 carries and four touchdowns, WR Branden McDougald gained 274 yards on four rushes to guide the Huskers to a season-high 29 points, including a school-record 25 on a run. The Huskers won a school-record 11 in conference play.

Kansas State Kicks Off Season With 75-61 Win

Wildcats Open Season With Win in CBE Classic

KSU Sports Information

MANHATTAN, Kan. – The Kansas State men's basketball team kicked off the 2010-11 season by defeating James Madison, 75-61, as part of the Manhattan Regional of the O'Reilly Auto Parts CBE Classic on Friday night in front of a sold-out crowd at Bramlage Coliseum.

The No. 3-ranked Wildcats were led by Preseason All-American Jacob Pullen, who led all scorers in the contest with 20 points on 5-of-10 shooting. Sophomore Nick Russell chipped in a career-high 19 points, bettering his previous high by 12 points. James Madison's Rayshawn Goins led the Dukes in scoring, dropping 17 points on the Wildcat defense.

K-State's defensive pressure was too much for the Dukes to handle, as the Wildcats forced 26 turnovers, scoring 21 points off of those opportunities. Pullen accounted for three of the team's nine steals on the evening with Rodney McGruder adding two of his own.

The Wildcats were on fire from downtown, knocking down 52.6 percent of their 3-point field goals on 10-of-19 shooting. Both Martavious Irving and Will Spradling were a perfect 2-for-2 from long-range, while Pullen connected on three of his first attempts.

James Madison started the game off by taking a six-point lead before the Wildcats had put a point onto the board. The Wildcats answered back by scoring six unanswered points of their own to tie the game up with a Pullen 3-pointer at the 17-minute mark. Both teams traded baskets back and forth over the next six minutes, tying the game up at 19-19 with 11:31 to play in the first.

K-State took the lead on its next basket, a Spradling 3-pointer, and would not relinquish it for the rest of the night. The Wildcats closed out the first half with a 19-11 run to head to the locker room with an eight point lead, 38-30.

Following the break, K-State put the hammer down, starting the second half with a 17-5 run to stretch its lead to 20 points at 55-35 capped off by a Pullen 3-pointer at the 13:48 mark. James Madison was able to cut the Wildcat lead to as little as 13 at the 2:12 mark but could not get any closer than that against K-State in its move to 0-1 of the season with the 75-61 victory.

Game two of the Manhattan Regional of the CBE classic is scheduled for Thursday when K-State will host Presbyterian for a 7 p.m. tip. The championship rounds get underway at the Sprint Center in Kansas City, November 22-23, where K-State will play No. 12 Gonzaga in round one and either No. 1 Duke or Marquette in round two.

Next action for the Wildcats comes when No. 25 Virginia Tech visits Manhattan for a nationally televised tilt as part of ESPN's third annual College Hoops Tip-Off Marathon on Tuesday. Tipoff for the battle of Top-25 teams is scheduled for 3 p.m. and can be seen on ESPn and ESPN3.com as well as heard across the K-State Sports Network.

Head Coach Bill Snyder
On the grades of quarterbacks
Carson Coffman and Collin Klein.

“I think with passing grades, coaches sit down with all players individually – the good things that they do and the not so good things that they do. But then in front of that, we sit down with them after they put it all on the line. It is kind of like in any sport, when you get a grade. It is either a passing grade or a failing grade. We both graded out quite high, really. But that does not take away from the fact that we made some dramatic mistakes at times. So there is some balance there, I guess.

On when he will name a starting quarterback.

“I do not have a time limit on when we are going to make a decision. But whenever it seems appropriate, I will do that decision.”

On the improvement of Collin Klein.

“You need to be on the field for an extended period of time for that kind of improvement to show. You need to approach it in a healthy, realistic manner. Again, it is like taking the test – you cannot do great things in a short study time. But you still have to take a test, or at least you let me know what you thought you knew. He has improved to the point that most, in both practice and in game situations.”

On Colorado’s performance but weekend against Iowa State.

“I think it was a much different game than what it was the day before, but we were coming off the young era. But there were no dramatic changes schematically. I think it was just a different team.”

MANHATTAN, Kan. – With the
Wildcats’ defense limiting the Bears to
a season-low 102 rushing yards in the first half, Kansas State won its nine
straight game in the Big 12 Conference. With a 67-24 decision over
Colorado State, Kansas State will play in the
title game of the event for the 16th
time.

A 10-3 victory in the second half, including a 12-0 run in the final
quarter, allowed the Wildcats to
build a 23-12 halftime lead and
guarantee a top-two finish in the
Big 12 standings. Kansas State
will face the winner of the
Missouri-Kansas game.

A 27-7 win over the Jayhawks
last week, the Wildcats have
now won 17 of their 22 games
against Big 12 opponents.

On the importance of being
ready in case of an injury.

“It is very important. Coach
always stresses that you can
play away from getting in there, so
you always have to be ready and
practice like you are going to be
playing that week. That is one thing
I have been able to do.”
